## **WARRANTIES**

### **a. Wear Warranty:**

We warrant to the original purchaser that the wear layer on our flooring:

- Will not wear through the decorative layer. Scratches, indentations, or reduction in gloss level is not considered wear.
- Will not fade, as a result of direct sunlight or normal indoor lighting.
- In its original manufactured condition, will be free from manufacturing defects.

These warranties start from the date of purchase, but only if no exclusions are applicable and only if all requirements herein are fulfilled and are offered for a period of 5 years in Commercial spaces.

### **b. Structural Warranty:**

We warrant to the original purchaser that our flooring:

- Will not delaminate.
- In its original manufactured condition, will be free from manufacturing defects.

These warranties start from the date of purchase, if no exclusions are applicable and only if all requirements herein are fulfilled, for as long as the original installation of the flooring is in place.

### **c. Warranty for Installation Over a Radiant-Heated Subfloor:**

We warrant to the original purchaser starting from the date of purchase, the floor can be installed over a radiant-heated subfloors. Radiant heat systems must be warranted by manufacturer of system for installation of SPC products. Any damage caused to SPC product by the Radiant heat system will void PISO FINO LLC Warranty. This radiant-heated subfloor warranty is only applicable when at least the following cumulative requirements are fulfilled:

- Radiant Heat: Radiant heat systems must have a minimum of 1/2" separation from the product.
- In-floor Radiant Heat: flooring can be installed over 1/2" embedded radiant heat using the floating or glue down method.
- Electric heating mats that are not embedded into the subfloor are not warranted for use underneath the SPC flooring. Using electric heating mats that are not embedded and applied directly underneath the flooring will void the warranty in case of failure. It is best to install the product over embedded radiant floor heating systems that are warranted for resilient flooring installation and adhere to the guidelines listed above.
- The radiant heating system must incorporate electronic temperature controls.
- Heat must be off for 24 hours before, during and 24 hours after installation when installing over radiant heated subfloors.
- Before installing over newly constructed radiant heat systems, operate the system at maximum capacity for at least 14 days to force any residual moisture from the subfloor.

- 
- For concrete or gypcrete subfloors, conduct and document Calcium Chloride Tests per ASTM F1869. Test results must not exceed 2.0 lbs. per 1000 square feet per 24 hours. For wood subfloors, use a pin type meter to document the moisture content of the subfloor. Moisture readings should not exceed 8% in any location.
  - Make sure that the temperature in the room is minimum of 60°F (15°C) during installation.
  - Once the installation has been completed, the heating system should be turned on and increased gradually (5-degree increments) until returning to normal operating conditions.
  - Heated flooring system temperature must not exceed 85°F (30°C).
  - Refer to the radiant heat system's manufacturer recommendations for additional guidance.
